

## FOURTEEN INCHES OF SNOW FELL YEAR AGO TODAY

On February 23, 1917, according to C. H. Martin, street supervisor, his department was grappling with four inches of snow and \$121 was expended to clear the streets for traffic. The report also shows that on this date last year, eleven snow plows were in operation, reinforced by four dump wagons. Twenty-one men were at work—the greater number of whom were using snow shovels.

In contrast with the fourteen-inch snow of a year ago and zero weather, today's temperature was 45 degrees and the snow is disappearing without assistance.

In addition, the city has only eleven men at work and they are pursuing the summer-time occupation of flushing the streets.

## RECKLESS DRIVER OF AUTO FOUND TO BE A DESERTER

David Swain, arrested in Ogden on February 6 by Deputy William Brown for reckless driving and drunkenness, and released later on \$100 bond, was taken to the guardhouse at Fort Douglas today by Sheriff John S. Corless of Salt Lake county as a deserter from the Eighth company of the California coast artillery. Swain was arraigned a day or so after his arrest and Judge George S. Barker set his trial for February 26. He had been posted as a deserter from the California company since October 24, 1917.

Swain has left a trail, according to word from Salt Lake, of fictitious checks, fraudulent oil stock companies, oil stock swindles and fake promotion schemes behind him in Ogden, Salt Lake and Provo. He has been operating in Salt Lake for some time under the eyes of the police and made side trips to Ogden and Provo and other adjoining towns to negotiate his business.

Sheriff Corless was first complained to because of Swain's conduct by several prominent citizens of Salt Lake, whom he is alleged to have fleeced. He had him arrested for investigation of these charges and while in the county jail it was found that he tallied with the description of the deserter. Arrangements were accordingly made to turn him over to the authorities at the fort.

Swain came to Utah from San Diego and is said to have had a woman in his company whom he had induced to leave her home in the coast city with her two small children and accompany him to Utah. They have since parted company.

## WORLD'S MARKETS

NEW YORK, Feb. 23.—Adoption of the railroad bill by the senate induced buying of transportation shares and other active issues at the opening of today's stock market. Union Pacific, New York Central, Shippings, Crucible Steel, Baldwin Locomotive and Mexican Petroleum gained 1 to 2 points with fractional advances in minor railroads and war shares. A jump of 4 1/2 points in American Sumatra Tobacco was the noteworthy feature of the special group. General Motors and General Electric were under further pressure. Liberty bonds were steady.

Popular stocks as well as speculative issues advanced 1 to 4 points at the opening of today's market, but soon yielded the greater part of their advantage. The early rise was ascribed to short covering due to the passage of the administration's railroad bill, transportation shares being foremost in the movement. Among special stocks General Motors dropped four points presumably in connection with its change of control, and Sumatra Tobacco gained six points. The closing was irregular. Sales approximated 325,000 shares. Liberty bonds were heavy, the 3 1/2's selling at 97.60 to 98.04, the first 4's at 97.20 to 97.32 and second 4's at 96.70 to 97.00.

## Chicago Quotations

CHICAGO, Feb. 23.—A general rush to sell and sharp breaks in values resulted today from action of the Board of Trade directors establishing maximum price limits on all business in future deliveries. Oats especially showed acute weakness but the unloading seemed to be of a miscellaneous character that did not affect any large individual holdings. Rallies which ensued from the extreme low point touched at the outset were mainly due to profit taking by shorts. After opening 1 1/4c to 3 1/4c down, with May 87 1/4c to 89c, the market gradually reached comparative steadiness around 88 1/4c for May.

Corn reflected only to a moderate extent the repression of oats. Urgent export and industrial demand tended to act as an offset for the new restrictions which in any case could not directly apply to corn with any greater stringency than has long been the case. Opening prices, which ranged from 1 1/4c to 1 1/2c lower, with March \$1.27 1/2 and May \$1.26 1/2 to \$1.27, were followed by slight changes within the initial limits.

Provisions dropped at once as far as the rules would permit for one day. There was general commission house liquidation.

## EVA WILSON IS NOT IN COUNTY JAIL

A statement was printed February 21 to the effect that Eva Wilson was in the county jail facing a charge similar to that brought against her sister Mary Wilson by Amer Singh, a Hindu. The statement was erroneous as no complaint had been filed against Eva Wilson.

## Our Government Is Calling Every Physician and Trained Nurse the Country Can Spare

THOUSANDS have already gone, many more are to follow. These facts should awaken in us an added sense of watchfulness concerning our health and the health of our children.

Nothing can add more to the health and vigor of our school children than keeping their garments free from the myriads of contagious disease germs these garments gather week after week. Let us keep their woolen suits and dresses, coats and cloaks clean. Have these garments cleansed two or three times during the second term of the school year. It may save their lives—it will surely preserve their health. Besides, it is the greatest economy you can practice.
